Q10: What local needs do you have?

Adressing the issues of the next generation of farmers. Teaming with local FFA and AG-Ed instructors to assess needs and long term growth and retention of those in the farming/ranching industry.

Extension partner with companies large and small, farmer and ranchers to develop economic growth. Mainly develop smaller business to hire local people. Several smaller businesses may provide more tax base and easier to get than one large business.

Housing issues for senior to stay at home longer and you families starting out on how finance their first home

I think we need to find a way to support our local economy in ways other than high property taxes. We need to start training youth to be self sustainable and to keep a positive outlook on life. I am really lucky to be able to promote 4-H in various ways

keeping our local 4-H program active with teens/children/adults and families

maintaining family relationships ecofriendly products

More information on our economy and how families should prepare for the tough times ahead.

More involvement from community concerning livestock issues.

Our county could definately benefit from activities and programs to get young people involved in and aware of all things extension has to offer. Extension has the potential to help a great number of individuals- young and old.

Promotion of locally grown food. Movement to small farms and marketing food to direct market incentives.

To improve the quality of my family's life in all aspects.
