
Send Wednesday morning DFL Session III Reminder

From : Margaret Phillips <margaret@ksu.edu>

Wed, Feb 15, 2012 10:16 AM

Sender : Maiser@ksre.ksu.edu**Subject :** DFL Session III Reminder**To :** Design for Learning Class <df1@ksre.ksu.edu>**Reply To :** Margaret Phillips <margaret@ksu.edu>

DFL Participants,

We'll begin Session III at 10:00 a.m. on Friday, February 17, but please log in early. The Connect meeting room will be open by 9:30 a.m. and the conference call at 9:50 a.m.

*Connect meeting room (for assistant call 785-532-6270)
<http://connect.ksre.ksu.edu/ksreprodev>
and conference call 866 620-7326 and PIN 9937154336*

Suggestion--if you have a mute button on your phone I suggest that you use it instead of the conference call provider command. If you don't have a mute button then the provider command is your only choice. Here are the commands from the provider: *6 = mute, #6= unmute.

Design for Learning, Session III will begin with Marie Blythe our facilitator for Session II. We didn't quite get finished so will take the first 15-20 minutes to do that. She will do a brief review of **Selecting Teaching Tools** from our last discussion and finish up with **Creating an Effective Learning Environment**.

Paula Peters will join us to facilitate **Organizing and Designing Content Using the Logic Model**. Here, again, is the assignment which is linked on the DFL Website:
http://www.ksre.ksu.edu/employee_resources/p.aspx?tabid=300

- Read Unit 2 from *Design for Learning - A Self Paced Guide*
- Read pages 109-111 from *Mastering the Teaching of Adults*
- Review and understand the components of the Logic Model. A good way to do that is to visit the University of Wisconsin Cooperative Extension Logic model course that is on line at: <http://www.uwex.edu/ces/lmcourse/>
- **Draft two or three objectives for the lesson that you plan to deliver soon.**

There is a PowerPoint handout linked on the website that you can print off prior to the session starting.

While we were gathering for the previous session several of you received busy signals when

calling in. Thank-you for your persistence, you finally did connect. The company has been notified of those challenges and our meeting schedule in case they choose to monitor. **If you have difficulty connecting to the conference call this week go ahead and join the connect meeting room, send me a message in the chat box that includes your call back telephone number.** We have had relatively good experiences with our technology, but there can be challenges and we'll try our best to keep those to a minimum.

Please let me know if you are not able to attend the session.

"See" you soon!

Margaret
