

July Bingo

www.idph.state.ia.us/pickabettersnack

This bingo activity encourages you to enjoy a variety of fruits and vegetables and physical activity. Complete the Pick a **better** snack[™]& Act card by putting an "X" through the square of fruits, vegetables, or physical activity you have tried. A "BINGO" is completed when you have a line diagonally, horizontally or vertically.

Coming next month...

- Raspberries
- Honeydew melon
- Nectarine
- Papaya

Printed with funds from the lowa Nutrition Network and USDA's Food Stamp Program. To find out more about lowa's Food Assistance Program call 1-877-937-3663 (1-877-YES FOOD). Food Assistance can help you buy nutritious foods for a better diet. These institutions are equal opportunity providers and employers. lowa Department of Public Health

SWEET CORNHusk. Wash. Eat. How easy is that?

 Boil sweet corn and roll in fat-free butter spray and salt free seasonings.

 Cut corn off cob and add to your favorite salsa.

 Cook corn in the microwave by removing the husks and silk. Wrap ear with waxed paper or husk secured with rubber bands. Cook at full power in microwave. Allow 2 minutes per ear.

Buying tips: Choose ears with bright green, moist husks. The silk should be stiff, dark, and moist.

Special tip: To prepare corn, remove husks and any bits of silk.

Storing tips: Ideally corn should be cooked and eaten immediately after picking. If it must be stored, keep it refrigerated and use within 2-3 days.

Vegetable subgroup: Starchy

BLUEBERRIESWash. Eat. How easy is that?

- Put fresh blueberries on cereal for a refreshing snack.
- Make a red, white and blue treat by layering blueberries and strawberries with vanilla yogurt.
 Top with granola for a little crunch.
- Make a "baton" by sticking a blueberry on each end of a pretzel or party pick.

Buying tips: Choose berries that are plump and blue in color. The berries should be free of stems and leaves. The berries should be free of mold, blemishes, and wrinkles.

Special tip: To wash, rinse berries well in cold water.

Storing tip: Store blueberries in the refrigerator, in the original container. Use within 1 week.

Wash. Cut. Eat. How easy is that?

 Cut up fresh cantaloupe and put in a plastic bag in the refrigerator for a quick snack.

- Wrap a thin slice of turkey or ham around a slice of cantaloupe for a hearty snack.
- Make cantaloupe "moons" by slicing the cantaloupe in a crescent shape and top with cranraisins.

Buying tips: Choose well-rounded melons with a sweet odor. The melon should have a slight softness when lightly squeezed. The skin should be a light yellow or tan color. Do not choose dented melons or those with an overripe odor.

Special tip: To wash, rinse well with cold water upon use.

Storing tips: Ripened melons can be stored in the refrigerator. Use within 3-5 days.

WATERMELON Wash. Cut. Eat. How easy is that?

 Take a whole watermelon and slice (like you would a tomato). Use your favorite cookie cutters to make fun shapes out of the fruit.

Buying tips: Choose well-rounded and smooth melons. The skin should have a dull sheen.

Special tip: To test ripeness, slap the melon lightly to see if the sound is flat and dull. This means the melon may be under ripe. If it sounds really hollow, the melon is too ripe.

Storing tips: Whole and cut melons should be stored in the refrigerator or in a cool part of the house. Wrap the cut end with plastic wrap and use within 3-5 days.

To maximize your potential, eat 1-2 cups of fruit and 1 ½ -2 ½ cups vegetables daily. Weekly include 1-3 cups dark green vegetables, 1-2 cups orange vegetables, and 1-3 cups legumes.

Visit MyPyramid.gov for more specific serving recommendations based on your calorie needs.

Physical activity... It's everywhere you go.

walk...dance...play... have fun... just be active!
