

Your Sanitizing Guide

For washing produce and food contact surfaces

READ THE LABEL

LOOK FOR THE FOLLOWING

- * **Approved for Food Contact Surfaces**
- * **Labeled for washing produce to control public human health organisms such as E. Coli, Salmonella and Listeria**

COMMON MISUNDERSTANDINGS

- * **Non-Food Contact Surface products used to clean surfaces or treat produce water (ex. Great Value Bleach)**
- * **Label indicates the approval of washing produce to extend shelf life, but does not state for the reduction of public human health organisms such as E. Coli, Salmonella, Listeria**

Please reference the sanitizer list (on the reverse side)to help determine the appropriate product for your operation. Funding for this publication was made possible, in part, by the Food and Drug Administration through grant PAR-16-137. The information provided in this publication does not necessarily reflect the official position of the Department of Health and Human Services; nor does any mention of trade names imply endorsement by the United States Government.
