## ***Letter of Transmittal***

---

***Office of the Director***

***To the Honorable Kathleen Sebelius,  
Governor of Kansas***

It is my pleasure to transmit herewith the report of the Agricultural Experiment Station of the Kansas State University of Agriculture and Applied Science for the fiscal year ending June 30, 2002. This report contains the title, author, and publication information for manuscripts published by station scientists. It also contains a list of the research projects that were active during that period and a financial statement for the 2002 fiscal year. The report was published only in electronic format.

***Marc A. Johnson, Director***

## ***A Message from the Director***

---

We are pleased to provide this 2002 Director's Report of Research in Kansas. The report is intended to inform you about our research programs underway and some of our accomplishments for 2002. Agriculture continues to be vitally important to Kansans, and research is vital to maintaining Kansas' place as a leader in agriculture.

This and future issues will be produced and distributed in electronic format only. An annual report distributed via the Internet provides information in a more timely fashion, eliminates printing costs, and makes the report accessible to a broader audience. More detailed information about the accomplishments of our research programs are available in the 2002 Annual Report for K-State Research and Extension, which is available on our Web site ([www.oznet.ksu.edu](http://www.oznet.ksu.edu)); under Quick Search, insert "2002 Annual Report" ).

The 2002 Director's Report of Research in Kansas provides a list of departments, centers, and fields; station publications; active K-State Research and Extension projects; commercial grants and contracts; and financial information.

The Agricultural Experiment Station is the research component of K-State Research and Extension. Our research programs provide the latest information used by our extension programs to address issues facing Kansas citizens.

A handwritten signature in black ink, appearing to read "Marc A. Johnson".
