Senate Bill No. 277—Relating to the Registration and Licensing of Stallions—Chapter 318.

Stallions Licensed from January 1, 1919, to December 31, 1919.

LETTER OF TRANSMITTAL

To His Excellency, Henry J. Allen, Governor of Kansas.

Sir: I have the honor to transmit herewith the Annual Report of the State Live Stock Registry Board for the year ending December 31, 1919.

F. W. BELL, Secretary.

A SPECIAL REQUEST

The State Live Stock Registry Board requests stallion owners to use the utmost care in making application for stallion licenses, being certain:

- (1) That the application blank is accurately filled out in every detail,
 - (2) That the application for license for grade or cross-bred stallion has been sworn to,
 - (3) That the registry certificate (pedigree) accompanies the application for a purebred license if the stallion has changed ownership since the previous license was issued,
 - (4) That the fees are in the form of post-office money order, express money order, draft, or certified check,
 - (5) That all fees, papers, and pedigrees are inclosed in one envelope, as great confusion and delay are often caused when they are sent in different wrappers, due to the fact that 1,000 applications are sometimes received in one week, and care of this sort on the part of each stallion owner will assist greatly in the early issuance of licenses.
 - (6) That the application for a license is sent just as soon as the application blank is received, thus avoiding delay in issuing the license and allowing one to advertise his stallion before the breeding season opens,
 - (7) That all sections of the stallion license law are read carefully.
- The law has been in effect long enough so that everyone is expected to be familiar with its provisions and all must comply with each provision of the law. Attention to these details will assist not only the registry board, but the stallion owner as well.

HORSE REGISTRY ASSOCIATIONS

Recognized by the Kansas State Live Stock Registry Board

- Percheron Society of America, Wayne Dinsmore, secretary, Union Stock Yards, Chicago, Ill.
- American Association of Importers and Breeders of Belgian Draft Horses, J. D. Conner, Jr., secretary, Wabash, Ind.
- American Suffolk Horse Association, Alex Galbraith, secretary, Janesville, Wis.
- American Clydesdale Association, R. B. Ogilvie, secretary, Union Stock Yards, Chicago, Ill.
- American Shire Horse Association, W. G. Lynch, secretary, Tonica, Ill.
- The American Breeders and Importers Percheron Registry Company, John A. Forney, secretary, Plainfield, O.
- National French Draft Horse Association of America, C. E. Stubbs, secretary, Fairfield, Iowa.
- American Trotting Register Association, Frank E. Best, secretary, 137 South Ashland Blvd., Chicago, Ill.
- American Morgan Register, T. E. Boyce, secretary, Middlebury, Vt.
- American Saddle Horse Breeders Association, R. H. Lillard, secretary, Louisville, Ky.
- Arabian Horse Club of America, H. K. Bush-Brown, secretary, 1729 G Street, N. W., Washington, D. C.
- American Hackney Horse Society, Gurney C. Gue, secretary, 308 West Ninety-Seventh St., New York, N. Y.
- French Coach Horse Society of America, Duncan E. Willett, secretary, Maple Ave. and Harrison St., Oak Park, Ill.
- German, Hanoverian and Oldenburg Coach Horse Association of America, J. Crouch, secretary, La Fayette, Ind.
- Cleveland Bay Society of America, R. P. Stericker, secretary, 24 West Lake St., Aurora, Ill.
- American Shetland Pony Club, J. M. Wade, secretary, La Fayette, Ind.
- Welch Pony and Cob Society of America, J. H. Leet, secretary, Mantua, O.
- The Jockey Club, New York, N. Y.

State Live Stock Registry Board

PROSECUTIONS

The stallion license law provides a penalty in the form of a fine of from \$20 to \$60 and costs for standing or offering a stallion for public service without a license, and the courts have ruled that an owner is standing a stallion for public service whenever he allows his stallion to serve mares owned by neighbors or others, and a license is required.

A few stallion owners who have interpreted the law to suit their own fancy and have used their stallions without licenses have suffered the embarrassment and expense of an arrest, prosecution, and fine. However, it has always been the policy of the State Live Stock Registry Board to give stallion owners every possible opportunity to take out licenses before starting a prosecution, but when a stallion owner willfully and knowingly uses his stallion for public service without a license, the Registry Board is ready to prosecute if its attention is directed to such violation of the law. All information furnished the State Live Stock Registry Board relative to violation of this law will be treated confidentially.

IMPROVEMENT IN PUBLIC SERVICE STALLIONS SINCE 1910

The work of the Kansas Live Stock Registry Board continues to be rewarded by an increase in the percentage of purebred stallions standing for public service in the State. The table following shows the changes that have taken place since 1910, when the stallion license law went into effect:

| BREED | American Saddle | Belgian | Cleveland Bay | Clydesdale | French Coach | French Draft | German Coach | Hackney | Morgan | Percheron | Shelard | Shire | Standardbred | Suffolk | Thoroughbred | Purebred | Grades and Scrubs | Total |
|----------------------|-----------------|---------|---------------|------------|--------------|--------------|--------------|---------|--------|-----------|---------|-------|--------------|---------|--------------|----------|-------------------|-------|
| 1910..... | 16 | 133 | 15 | 41 | 35 | 261 | 38 | 12 | 17 | 1342 | 9 | 114 | 553 | 1 | 12 | 2599 | 3766 | 6365 |
| 1919..... | 19 | 185 | | 28 | 6 | 269 | 23 | 5 | 20 | 2244 | 8 | 57 | 118 | 2 | 8 | 2994 | 1445 | 4439 |
| Increase or Decrease | +3 | +52 | -13 | -13 | -29 | +8 | -15 | -7 | +3 | +902 | -1 | -57 | -415 | +1 | -4 | +395 | -2321 | -1926 |

A careful study of the table reveals some very interesting facts. Nine years ago 2,599 purebred and 3,766 grades and scrubs were licensed to stand for public service in Kansas. Only 40.8 per cent were purebreds while 59.2 per cent were grades and scrubs. During 1919 licenses have been issued for 2,994 purebreds and 1,445 grades and scrubs; 67.4 per cent purebreds and only 32.5 per cent grades and scrubs. In other words, 15 per cent more purebreds were licensed in 1919 than in 1910 and 61.6 per cent fewer grades and scrubs.

Furthermore, 2,755 purebred draft stallions and 309 purebred light stallions were licensed in 1919 as compared with 1,892 purebred draft stallions and 707 purebred light stallions in 1910. During this period there

has been an increase of 48.2 per cent in the number of purebred draft stallions and a decrease of 56.2 per cent in the number of purebred light stallions. During the same period the number of purebred Percheron stallions has increased 67.2 per cent, and they represent 74.9 per cent of all the purebred draft stallions standing for public service in Kansas during the year 1919.

Stallions of the different breeds, ranked in the order of the number licensed in 1919, appear in the following table:

| | |
|---------------------------|-------|
| Percheron | 2,244 |
| French Draft | 269 |
| Belgian | 185 |
| Standardbred | 118 |
| Shire | 57 |
| Clydesdale | 28 |
| German Coach | 23 |
| Morgan | 20 |
| American Saddlebred | 19 |
| Shetland | 8 |
| Thoroughbred | 8 |
| French Coach | 6 |
| Hackney | 5 |
| Suffolk | 2 |
| Cleveland Bay | 2 |

The counties having fifty or more stallions in which the largest per cent of purebreds were licensed to stand for public service during 1919, also the percentages of purebred stallions licensed to stand for public service in the same counties in 1910, rank as follows:

| County | Per Cent Purebred Stallions in 1919 | Per Cent Purebred Stallions in 1910 |
|--------------------|-------------------------------------|-------------------------------------|
| 1. McPherson | 91.6 | 47.1 |
| 2. Mitchell | 85. | 50.9 |
| 3. Reno | 81.1 | 51.5 |
| 4. Rice | 79.7 | 56.2 |
| 5. Pawnee | 79.2 | 38.8 |
| 6. Dickinson | 78.4 | 47.6 |
| 7. Anderson | 78. | 53.6 |
| 8. Barton | 77.3 | 44.3 |
| 9. Jewell | 76.7 | 40.1 |
| 10. Butler | 75.8 | 57.6 |

Pawnee county has shown the greatest improvement with an increase of from 21 to 42 in the number of purebreds and a decrease of from 33 to 11 in the number of grades and scrubs licensed to stand for public service. Reno is a close second. Its purebreds have increased from 49 to 69 and its grades and scrubs have decreased from 46 to 16.

In 1910 more grades and scrubs than purebreds were licensed to stand for public service in 87 of the 105 counties of the state. The records for 1919 show more grades and scrubs than purebreds were licensed to stand for public service in only six counties, a decrease of six counties since 1918. The counties in which more grades and scrubs have been licensed to stand for public service in 1919 are: Hamilton, Logan, Morton, Sheridan, Wallace, and Wyandotte.

The stallion license law has given mare owners a means of knowing the exact breeding of the stallions they patronize, and has eliminated the misrepresentations regarding bloodlines which formerly appeared in many stal-

lion advertisements. In 1909, over 2,000 grades and scrubs were advertised as purebreds, while in 1919, not one such animal was so advertised in Kansas newspapers. Previous to the passage of the stallion license law hundreds of grades and scrubs with fake and fraudulent pedigrees were sold as purebreds to unsuspecting purchasers at prices ranging from \$500 to \$4,200 each. These unscrupulous stallion peddlers have left the State, as the stallion license law has exposed their wares.

These practical and beneficial results from the operation of the stallion license law make it of inestimable value to the horse raisers of Kansas. The cooperation of every one interested in horses in seeing that the law has its widest application will result in even greater benefits.

**KANSAS HORSE BREEDERS' ASSOCIATION
ANNUAL MEETING
February 5, 1919**

F. W. Bell, Secretary

The annual meeting of the Kansas Horse Breeders' association was held at Manhattan, Kansas, Wednesday, February 5, 1919. This meeting was attended by a large number of Kansas horsemen. D. F. McAlister, the first speaker on the program, gave a very interesting talk on the value of purebred mares on the farm. Mr. McAlister raises good Percherons and uses them to do all the farm work. His mares are returning a nice profit through the sale of the colts besides furnishing all the power needed on the farm to handle the crops. Mr. McAlister urged the horse breeders to exhibit some of their stock at the fairs. It is worthy of note that horses bred and raised by Mr. McAlister have been consistent winners at the state fairs.

F. W. Bell, secretary of the association, discussed the value of horse breeders' organizations. The horse breeders of a community can form an organization for mutual improvement, community advertising, and combination sales. Such an association by emphasizing the importance of breeding only to the best stallions obtainable, and raising horses that meet the market requirements, can build up a reputation for the community that will attract buyers and create a good market for any surplus stock.

Geo. M. Rommel, Chief, Animal Husbandry Division, Bureau of Animal Industry, Washington, D. C., was unable to be present to discuss the subject, "The Horse Situation as I saw It in Europe," but sent a paper to be presented at the meeting. This report brought out the fact that except in devastated areas the breeding stock of France and England had been maintained to such a degree that these countries would be able to build up their studs in a reasonable time. It was expected that some exportation of horses would be made from the United States to foreign countries, but it was pointed out that exportations would doubtless be limited on account of restricted shipping facilities, high freight rates, and the heavy losses in shipping due to injury and sickness.

"The Horse That Brings The High Dollar in The Open Market" was discussed by Frank H. Sweet, senior member of Sweet and Piper Commission Company, Kansas City, Missouri. Mr. Sweet emphasized the necessity of developing colts rapidly so that they would reach the market with plenty

of size and in good flesh with smooth coats. In concluding his remarks he summed up the situation very clearly when he said, "If the producers of horses and mules will be particular as to the kind they raise, will give them care and attention, dispose of their scrub breeding stock, and when they go to market have every animal in good market condition, their returns will be quite satisfactory."

"Government Aid for the Horse Breeder" was the subject assigned to A. P. Coon, Lincoln, Nebraska. He drew attention to the French and English system whereby the best stallions are given a bonus by the government, thus encouraging stallion owners to stand only good stallions. It would seem that a similar system might be adopted in this country if suitable state laws were passed which would make it more profitable for the stallion owner to keep nothing but a good purebred stallion.

At a business session the following officers were elected:

President, D. F. McAlister, Topeka, Kansas.

Vice-President, 1st Congressional District, Fred True, Perry, Kan.

Vice-President, 2d Congressional District, C. R. Soward, Baldwin, Kan.

Kan. Vice-President, 3rd Congressional District, G. W. Forbes, Cherryvale,

Kan. Vice-President, 4th Congressional District, Wm. Branson, Overbrook,

Kan. Vice-President, 6th Congressional District, Ed Nickelson, Leonardville,

Vice-President, 6th Congressional District, J. M. Rogers, Beloit, Kan.

Vice-President, 7th Congressional District, H. L. Salmon, Fowler, Kan.

Kan. Vice-President, 8th Congressional District, J. C. Robison, Towanda,

Secretary-Treasurer, F. W. Bell, Manhattan, Kan.

Third member executive board, W. H. Rhodes, Manhattan, Kan.

THE HORSE SITUATION AS ISAWIT IN EUROPE

Impressions of an Agricultural Commissioner During September and October, 1918,

By
 GEO. M. Rommel, Chief, Animal Husbandry Division,
 U. S. Bureau of Animal Industry

(The following statements regarding the horse breeding industry in Europe are taken from an address prepared by Mr. Rommel for the annual meeting of the Kansas Horse Breeders' Association, February 6, 1919.)

In the United Kingdom, (England, Scotland, Ireland, and Wales) there are about as many horses on farms as before, the war. The horse supply, however, is relatively short on account of the increased acreage of land under cultivation as compared with that before the war.

Horses on farms in France have declined about 1,000,000 head (from 3,250,000 to 2,250,000). This decline has to a considerable extent been made good by the substitution of oxen. Although we traveled a great many hundred miles throughout France, I do not recall ever having seen cows being used for work purposes.

Horses have probably declined in Germany and Austria Hungary, as much as in France, judging from statements from soldiers in the allied army concerning horses in the German army during the last month of the war.

It is probably true that the sections of Europe which have suffered the only serious decimation of breeding herds are those which have actually been devastated by the war. Herds in those sections which have escaped such devastation have been kept at normal size or better in order that their owners can furnish animals to restock the war-swept farms, even though they had to incur heavy expenses to accomplish this purpose.

The shortage of concentrates affects dairy cows, work horses, young animals and breeding stock particularly, and in the rationing which was found necessary in England preference was given these classes in the order indicated. Hay is short, and in England there was last year a reduced acreage of roots and a poor crop.

America may be called upon to furnish horses both for agricultural purposes and city use. The difference in prices of horses between Europe and America is very great. The prices in Europe are from two to four times what they are in America. The trade in horses will probably develop as soon as it is known how many horses will be demobilized from the armies, as soon as shipping facilities will permit the transportation of horses across the ocean and as soon as there are sufficient food supplies in Europe to support a larger number of animals than they now have.

Except horses, the export of live animals from the United States is doubtful for the following reasons:

1. Farmers prefer to buy stock which is nearby, accessible, of known characteristics and acclimated.
2. European breeders have conserved their herds for the purpose of meeting this demand and will naturally be better able to compete for it than farmers across the sea.
3. The risk of loss in shipping and on account of acclimation will naturally be heavy on animals transported abroad.
4. The expense of shipment will be very heavy and there should be a considerable margin between the cost of animals in the United States and their value in Europe in order to render such a risk worth taking.

HORSES ON FARMS

| | 1914 | 1917 |
|-------------------------|-----------|-----------|
| United Kingdom | 2,237,783 | 2,190,318 |
| Scotland | 209,360 | 210,048 |
| Ireland | 619,028 | 597,692 |
| England and Wales | 1,399,547 | 1,372,822 |
| France | 2,105,000 | 2,283,000 |

DRAFT HORSE TRADE CHANGING

By

A. P. COON, Manager Wood Bros. Company, Lincoln, Neb.

Unless conditions as I saw them during a recent trip through the best draft horse producing section of Illinois and Iowa, in addition to an extended trip through the Canadian Northwest, are very misleading there is a marked change in the draft horse business coming. I cannot see any chance of its being otherwise.

In Illinois I made a careful survey of the whole draft horse situation by taking an auto and traveling those counties where the most Percherons are raised. As nearly as I can estimate, not over six per cent of all the two and three year old stallions that I looked at would do to buy. There were plenty of colts but they were practically all too thin. Much to my surprise I found some of the best breeders with half starved colts. The colts had been the making of good stuff but feed had been so high that they had not seen much of it. When one goes to a man's place who has well bred mares and a good herd horse and finds 800 pound yearlings with long hair on them and 1000 and 1200 pound two-year-olds all running together, it is pretty positive proof that there is a change coming. For some it will be for the better and for others it will be for the worse. Every dealer would rather leave his money in the hands of a breeder with the right kind of parent stock because those colts will always grow into better horses, but just so surely as the youngsters have been half fed from weaning time until they are two years old, they are stunted beyond help. Of course, feed will grow them out some but they will always be a cheap horse. What is the dealer to do? He wants stallions but my long experience as a dealer has led me to believe it is better to let a colt alone if he does not look like he would make plenty of money. There are always enough things to go wrong with them after you own them to make it bad business to buy anything but first grade colts. Whenever a farmer leads out one of this kind to show me, I always feel sorry for the man who raised the colt, but I remember, too, that I have never found that it pays to handle that class of colts at any price and I let the man put the colt back in the barn, thank him for his trouble and drive on. During this trip in Illinois I spent nearly two weeks and had just such experiences over and over every day.

Occasionally a man would ask me why I turned his colt down and I had to tell him frankly just what I have said here. Then a breeder will come back at you with some such question as this, "What am I to do? I paid \$1,000 a piece for my mares and the stallion I am using cost me \$2,000. I have raised these colts to the age when they are old enough for service. You say you are buying stallions but you can't use mine." There is only one way to answer a man who puts such a question. Tell him that a colt that a dealer will buy must be well grown and sound. If the colt has a good frame, good conformation, and the right set of feet and legs under him, a dealer can see an outcome in him even though he is not fat, and will bid a fair price. But there is no use in trying to feed out a 1,200 pound two-year-old. It is almost always a loss of money regardless of what such a colt may cost the dealer in the first place.

The best thing to do is to make a gelding out of the colt that a dealer cannot afford to handle. I know it sounds like a hard blow to the purebred draft horse business to tell a breeder that he had better castrate his colts, but nevertheless it is for his best interests. Here is a concrete illustration: I drove into a breeder's lot who had about fifteen stallions, yearlings, two-year-olds and three-year-olds, all running together, wrestling each other and "raising Cain" in general. The breeder was almost distracted because he was busy in the harvest field and did not want to be bothered with these stud colts. A dealer could almost have set his own price and yet there was not a colt in the whole lot that would do me any good. Castrating those colts would eliminate much of the trouble in caring

for them and they would make good work horses if turned out on grass and with some grain to eat during the winter. The longer this breeder keeps these colts as stallions the more money he will lose. He is bound to keep them, too, because they were so undersized from starvation that they would not even do to sell to a rangeman.

On the other hand, the man who keeps his stallion colts up in a box stall with no outdoor exercise and plenty to eat is following just as unprofitable a practice. His colt is usually boggy or curby and sometimes the feet have been allowed to grow out and break off. One side of the foot is left a little higher than the other, the foot rolls a little and nine times out of ten a sidebone is the result of the lateral cartilage becoming inflamed because the foot was not kept level. It is surprising to find so many two and three year old stallions with sidebones and even some yearlings in the same condition. Now there is absolutely no hope of a dealer buying such a colt, for he can not sell him again and make any money from the transaction.

The extreme western part of the United States has in years past provided a splendid market for just such colts as I have described to be used on the range. Ranch projects are now being broken up rapidly into smaller holdings and the production of horses on the open range has been curtailed very considerably in the last two or three years. Farming in the west is getting to be more of a combined grain and livestock proposition. These farmers have learned to appreciate and demand a good draft stallion just as the corn belt farmer found by experience that that was the only kind of a horse it paid to raise. The cheap stallion will not satisfy even the range man. The past summer has been very dry in the extreme west and the drouth has extended on up into Canada. This will undoubtedly prevent the buying of considerable number of stallions during the coming winter. I know of a few carloads that will go west, but in no such large numbers as have been shipped into Montana, Oregon, Wyoming, Idaho, and Washington and the Canadian Northwest in the past twenty-four months. The people have not the crops and therefore have not money with which to buy stallions. Hence, the breeder or dealer with stallions to sell must necessarily look to the central states very largely for the bulk of his trade. That means the best type of draft stallions to be found will be the only kind in demand. Breeders generally have been too loath to excuse themselves for the poor colts they have been raising by saying that such colts would do all right for the western dealer. Those people who have been entertaining such ideas will have to change them now.

All this means that the breeder and dealer alike must confine his operations strictly to first class horses. The breeder who has any of the other kind should alter them and get them to work as soon as they are old enough. The dealer will find it unprofitable to handle any kind of a horse that will not suit a corn belt farmer. That time has come when the interests of the average breeder and dealer are mutual. They must work together. One depends upon the other.

With this change in the general draft horse situation should come a remodeling of our stallion laws. They were all right as drafted in the beginning, but, like everything else, they must be changed constantly to meet new conditions. Otherwise they become out of date and are no longer progressive in their scope. With this oncoming demand for high class draft stallions there should be a law in every state that would make it profitable for a man to buy such a horse and stand him for public service. Without such a law how can we expect to improve the common horse stock of our country? Now we have come to that period in the development of American agriculture when only the best sires should be patronized and the government is doing nothing whatever to encourage the patronage of such a class of stallions. As in France, Belgium, England and Scotland, horse breeding should become a national issue in the United States. This work is just as much entitled to governmental aid in this country as it is in Europe. Canada is now taking the progressive move and is lending financial assistance to those men who will buy outstanding sires and give the public

the benefit of their services in improving the common horse stock of the land. I believe in this work so thoroughly that I believe that some similar action should be taken here in the central states, especially where there is every reason possible for the encouragement of standing good draft stallions. I have seen governmental aid to horse breeding in actual practice in the old countries and I know positively that it was because the government got behind those farmers over there that they were able to produce such a high class lot of horses. Nothing but a very superior horse is allowed to stand for public service in either of those four draft horse producing countries. Here in our own country practically every stallion colt we have raised has been kept for stud duties. All of this has been due of course to the high prices that have prevailed for the past two decades. Any kind of a stallion that was fair in conformation, had four legs and could sire colts would sell at a medium price. Not so any more, and our horsemen should get together and do something at once through legislation to eliminate these undesirable horses. Perhaps enough money could be gotten to allow aid to one or two purebred draft stallions in each county in the state, the horses to be selected by a committee of three competent judges chosen by the government. The breed of course would depend entirely upon the majority vote of the people who lived in the district where a state approved horse was to be traveled. A route over which such a stallion was to be taken could be chosen in the same manner as a mail route, so that the greatest number of farmers could be accommodated. This once mapped out, it would be an easy matter to determine the breed of horse wanted. Whatever amount was appropriated per stallion by the state should of course be paid directly to the owner. Then each farmer who is to patronize this horse should guarantee so many mares at so much for the season. I have always been strongly against the idea of a service fee that insures a colt to stand and suck. Whenever a sure horse serves a mare at the proper time during a breeding season, he has done his part of the contract and his owner should be paid for his service. If the mare owner does not take good care of her or does not return her to the horse, then it is not the fault of the stallion nor of his owner if the mare does not get in foal. A service fee that requires only the use of a horse for that season is always the most satisfactory as well as the most profitable for both stallion and mare owner. The man who breeds a mare with that understanding is always surer of getting a live colt than if he feels that if the colt dies or the mare does not get in foal he has nothing to pay.

I believe that this change in the draft horse business is all for the good and that it marks the beginning of a profitable future for the breeder or dealer who handles good stock. For the man who tries to stay in the business with a second rate class of drafters, I can see absolute failure.

THE HORSE THAT BRINGS THE HIGH DOLLAR IN THE OPEN MARKET

Address by Frank H. Sweet of Sweet and Piper Commission Co.,
Kansas City, Missouri, before the Kansas Horse Breeders
Association, Manhattan, Kansas, February 5, 1919.

Intensive farming in the eastern and central states gave rise to the demand for the draft horse that could draw great loads with ease and this type of horse has fitted easily and naturally into every phase of the life of the world. He has carried men to battle, he has toiled in peace to produce foods for man and beast, and his development has always been along the lines best suited to the job offered him.

As the future of the horse and mule in our economic and industrial life. Let the past speak for the future. I well remember when electricity supplanted horses as a motive power on street cars and it was then freely predicted that the day of the horse and mule had passed and they would never again be of any value, but they have steadily increased in value since

that time and at the beginning of the late war the price on commercial animals was higher than it had ever been. This was especially true of the high class chunks, horses weighing from 1200 to 1400 pounds, that had action and quality and were suitable for light delivery single wagon work and express service. The coming of the war had its effect on the horse and mule market as it had on all other lines of business. Dealers in commercial lines of horses discontinued their regular business and devoted their entire time to the horse and mule that was suitable for war purposes for the different allied countries and later for our own. So many different classes of animals were purchased that the field was a large one and consequently very attractive to the average dealer. Because of the fact that the attention of the dealers was so universally employed in this particular direction, naturally the home commercial trade was neglected and suffered in consequence.

In explanation as to how the commercial channels that had absorbed the horses and mules were supplied I will say that owing to the changed conditions incident to the coming of the war, the demand was greatly lessened. Labor was extremely scarce. An era of great economy was inaugurated. People got along with less motive power and used horses and mules that under ordinary conditions would have gone to the discard, and in many cases where they were forced to buy, they bought a plain undersized, unsound animal that was not suitable for any of the allied war purposes.

Now all this has changed. The war is over and "business as usual" is bound to be the watch word. I am an optimist in this line as well as in others and I believe we are entering upon the greatest era of prosperity the world has ever known and the horse is bound to be a party to it.

As to the truck and tractor vs. the horse and mule. To my mind there is room for both. The geld is a large one, and our country, having developed so rapidly, has need of all motive power that it is possible to obtain and both at present are indispensable. To my mind the coming of the truck and the auto was very opportune as it solved many motive problems and had they not been placed on the market when they were the price of horses and mules must have been almost prohibitive for ordinary uses.

Now as to the commercial horse that brings the high dollar on the open market. Naturally that is a matter, generally speaking, controlled by the different seasons. At present and during the past two months nearly all the inquiry and fully 75 per cent of the outlet has been from the south, this being especially true of mules. The southern market demands the small to medium sized chunk, not too rugged but in good flesh and hair and buyers are very particular about their being well broken and mares are to be preferred. The south wants a useful, compact animal that is pleasing to the eye and for these they are willing to pay a very satisfactory price. The old idea that any horse or mule that was low priced was suitable for the southern trade does not hold good now. The south is prosperous and wants good stock and is willing to pay the price, and the more fit the animal is as to flesh and hair, the more the southern buyer will pay. Consequently I know of no more remunerative business than for the producer to put his stock, which he proposes to market, in the best of condition. This he must do if he expects the best returns.

The different markets are flooded each week with unsalable misfit animals and naturally they sell cheap. Consequently the opinion prevails that the market is bad and that horses have no value. People who use horses do not want to buy prospects such as a green, long haired colt that they have to mature and put into condition before they can use it, or a wild bronco that they will have to spend perhaps several months breaking, or an oversized, plain, rough horse whose only recommendation is the low price that may buy him. Buyers want an animal that is ready for immediate service and one whose size and other conditions make him suitable for the job for which he is intended.

As to the eastern trade which ordinarily buys the good chunks and draft horses. Just at present there is very little demand. This we account

for in a measure from the fact that both our government and the British have sold during the past six weeks large numbers of horses in nearly all the principal cities of the east, which for the present have supplied the markets of that territory. But from advice we have from Boston, New York, Philadelphia and the other large centers we believe that when this surplus of government stock is absorbed, there will be a demand for horses, and while it will probably take several months for the market to get back to such conditions as prevailed previous to the war, we believe eventually this will be brought about and then the problem of a market for the chunks and draft horses will be solved.

Another feature of the present horse market in this territory is the increasing demand for the better type of mares that are suitable for farming purposes and raising colts. At present there is a broad outlet for this class at strong prices and the fact that consumers are still buying these, leads me to believe that there is a future for the horse and that there are a great many very substantial citizens who do not think the truck and tractor are going to displace the horse.

In conclusion, I will say that I believe if the producers of horses and mules will be particular as to the kind they raise, will give them care and attention, dispose of their scrub stock, and when they go to market have every animal in good market condition, their returns will be quite satisfactory and the future of the horse will be assured.

DO YOU SHOW HORSES?

I want to urge the horse breeders and horse raisers of Kansas to show some of their horses at one or more fairs this year. The horse industry as well as the individual owner is greatly benefited by making a good exhibit at such fairs. Every horse breeder should be represented by an exhibit in his county or district fair, even though he may show only one animal. Many more breeders should send some of their horses to the state fairs.

Kansas is especially fortunate in having two big fairs in September, the Kansas Free Fair at Topeka and the State Fair at Hutchinson. Several thousand dollars in prizes are offered at these two fairs, and the prize lists have been made especially attractive for the farmer-breeder. When importing was at its height dealers and importers from other states as well as from Kansas, made up a big part of the exhibit and won the lion's share of the prize money. But the war has stopped importing and the American breeder must supply the breeding stock. No where else can you advertise your horses so effectively as at the fair. You will meet the buyers there or they will get in touch with you when the awards are reported in the agricultural journals and newspapers.

Write Phil Eastman, secretary Kansas Free Fair, Topeka, Kan., and A. L. Sponsler, secretary Kansas State Fair, Hutchinson, Kan., for premium lists which will be ready for distribution about June 1. Enter some of your horses this year and you will help to make a good show and doubtless carry off some of the prizes. And be sure to make a good exhibit at your local fair.

F. W. BELL.

DRAFT HORSE AWARDS AT THE KANSAS FREE FAIR, TOPEKA

September 8-13, 1919

Exhibitors—J. A. Howell & Son, Paris, Mo.; Adam Becker & Son, Meriden, Kan.; W. E. Dustin, Topeka, Kan.; Harry E. Ferguson, Topeka, Kan.; J. T. Schwalm, Baldwin, Kan.; Gossard Breeding Estates, Turon, Kan.; O. N. Wilson, Silver Lake, Kan.; D. F. McAlister, Topeka, Kan.; Mah-

Ion Groenmiller, Pomona, Kan.; C. R. Soward, Baldwin, Kan.; R. H. Towne, Valencia, Kan.; Kansas State Agricultural College, Manhattan, Kan.

Judge—Carl N. Kennedy, Des Moines, Iowa.

PERCHERONS.

Aged Stallions—1st, Gossard Estates on Kapitaine. 2nd, Wilson on Doran. 3rd, Dustin on Banker. 4th, Towne on Loto. **Four-year-olds**—1st, Schwalm on Burnap. 2nd, Howell on Big Nig. **Three-year-olds**—1st, Gossard on Kantonal. **Two-year-olds**—1st, Groenmiller on Erehart. 2nd, McAlister on Linn. 3rd, Dustin on Frenchy. **Yearlings**—1st, Schwalm on Brilliant. 2nd, Kansas on Tartarin. 3rd, Soward on Jockwin. 4th, Schwalm on Dobbins. **Stallion foals**—1st and 4th, Kansas on Alcar and Kandor. 2nd, Soward on Frosty. 3rd, Howell on Kinsman. 2nd. 5th, Becker on Happy. 6th and 7th, Gossard on Grenzlet and Grendale. 8th, Dustin on Granget.

Mares ten years and over—1st and 2nd, Dustin on Brunette and Mag. **Five years and under ten**—1st and 3rd, Gossard on Gazelda and Rosedale. 2nd, McAlister on Mancelle. **Four-years-old**—1st, Gossard on Kiocotte. 2nd, Kansas on V. Annette. 3rd, Becker on Roxanna. 4th, Wilson on Trixie Gerber. **Three-year-olds**—1st and 2nd, Howell on Mollie and Dollie. **Two-year-olds**—1st, McAlister on Beulah. 2nd and 3rd, Becker on Fairy Queen and Forfait Lady.

Yearlings—1st and 4th, McAlister on Charlotte and Alberta. 2nd, Gossard on Marzelda. 3rd, Howell on Twilight. 5th, Becker on Gaité. 6th, Schwalm on Belle. 7th, Soward on Edith Cavell. 8th, Dustin on Olivette. **Filly foals**—1st, Dustin on Alice Campbell. 2nd, McAlister on Norvelle. 3rd, Gossard on Grenacia.

Herds—1st, Gossard. 2nd, McAlister. 3rd, Howell. **Get of Sire**, (three)—1st, McAlister on Banker. 2nd, Schwalm on Burnap. 3rd, Soward on Kinsman. **Produce of mare**—(two)—1st and 2nd, McAlister on Vatine and Mancelle. 3rd, Wilson on Grezelda. 4th, Howell on Finale. **Mare and foal**—1st and 4th, Gossard on Kiocotte and Gazelda. 2nd, McAlister on Mancelle. 3rd and 5th, Kansas on V. Laura and V. Annette. 6th and 7th, Dustin on Brunette and Mag. 8th, Becker on Roxanna.

Senior and grand champion stallion, Kapitaine. **Junior champion**, Erehart.

Senior and grand champion mare, Kiocotte. **Junior champion**, Beulah.

BELGIANS

All awards to the Kansas State Agricultural College, Manhattan, Kan.

DRAFT HORSE AWARDS AT THE KANSAS STATE FAIR, HUTCHINSON, KANSAS, SEPTEMBER 18-20, 1919

Exhibitors—D. F. McAlfster, Topeka; Kan.; Gossard Breeding Estates, Turon, Kan.; J. A. Howell & Son, Paris, Mo.; J. T. Schwalm, Baldwin, Kan.; Mahlon Groenmiller, Pomona, Kan.; Adam Becker & Son, Meriden, Kan.; Kansas State Agricultural College, Manhattan, Kan.; Cantwell Bros., Sterling, Kan.; Guy McAllister, Lyon, Kan.

Judge—W. L. Blizzard, Stillwater, Okla.

PERCHERONS

CHAPTER 318

**RELATING TO THE REGISTRATION AND LICENSING OF STALLIONS
Senate Bill No. 277**

An Act regulating the registration, advertising, and licensing of stallions for public service in the State of Kansas, and repealing chapter 168 of the Session Laws of 1909 and all laws and parts of laws in conflict herewith.

Be it enacted by the Legislature of the State of Kansas:

Section 1. Every person, persons, firm, corporation, company or association that shall stand, travel, advertise or offer for public service in any manner any stallion in the State of Kansas, shall secure a license certificate for such stallion from the Kansas State Live Stock Registry Board, as herein-after provided. Said board shall consist of the dean of the division of agriculture, head of the animal husbandry department, and head of the veterinary department of the Kansas State Agricultural College.

Section 2. To obtain a license certificate as herein provided, the owner of such stallion shall comply with the following requirements: first, the owner of a purebred stallion shall forward to the Kansas State Livestock Registry Board for inspection, the registry certificate or a certified copy of the registry certificate of such stallion, also other necessary papers or documents relating to the breeding and ownership of such stallion. Second, owners of cross-bred or grade stallions shall forward to the Kansas State Live Stock Registry Board affidavit showing the breeding of such stallion. Third, owners of scrub stallions shall forward to the Kansas State Live Stock Registry Board a statement of the breeding of such stallion. Fourth, the fee for such stallion license shall be \$2.00 and said fee shall accompany each application for license, provided, however, that in case the stallion was licensed previous to July 1, 1913, under provisions of Chapter 168, Laws of 1909, the fee for a new license shall be one dollar.

Section 3. The Kansas State Live Stock Registry Board shall have power to revoke, cancel and recall any license when said board shall find that such license does not truly and correctly represent the horse for which said license was originally issued, and when a license is revoked by the said board, it shall be the duty of the sheriff or a constable of the county where such license is located, to take possession of said license and deliver the same to said Kansas State Live Stock Registry Board when called upon by said Kansas State Live Stock Registry Board to take possession of said license.

Section 4. The Kansas State Live Stock Registry Board shall issue four

kinds of licenses as follows: purebred, for stallion correctly recorded in stud books recognized by the Kansas State Live Stock Registry Board; cross-bred, for stallion whose sire and dam are of different breeds but each is correctly recorded in the stud book maintained for that particular breed, provided said stud books are recognized by the Kansas State Live Stock Registry Board; grade, for stallion whose sire or dam is recorded in a stud book that is recognized by the Kansas State Live Stock Registry Board; scrub, for stallion whose sire or dam are neither recorded in a stud book recognized by the Kansas State Live Stock Registry Board.

Section. 5. It shall be the duty of the Kansas State Live Stock Registry Board to examine and pass upon the merits of each registry Certificate and statement of breeding submitted, as herein provided, and it shall use as its standard the stud books and signatures of the duly authorized officers of the various horse pedigree registry associations, societies, or companies certified by the U. S. Department of Agriculture, Washington, D. C., Bureau of Animal Industry, in Order No. 136, dated June 20, 1906, and any other stud books which may be established in the future when an association or company establishing such stud books shall prove to the satisfaction of the Kansas State Live Stock Registry Board that they are doing an honest, reputable and creditable business, and that such stud books are necessary for the protection and encouragement of that particular breed.

Sec. 6. Each license issued by the Kansas State Live Stock Registry Board shall expire on December 31 of the year in which it is issued, but each license may be renewed each year, provided the owner of said stallion make application for renewal before March 1 following the date of expiration, and forward with such application for renewal a fee of one dollar for each renewal, and submit satisfactory evidence establishing the identity of stallions for which renewal of license is requested. Each renewal shall expire on December 31 of the year for which it is renewed. Failure to have license renewed, as herein provided, before March 1 following the date of expiration, shall forfeit the right of renewal and when such right has been forfeited, the owner of such stallion shall procure a new license as provided in section 2.

Section 7. The license certificate for a stallion correctly recorded in a stud book recognized by the Kansas State Live Stock Registry Board shall contain the following information: license number, registration number, breed, color, age, pedigree, name and address of owner, date of issue, the seal of the Kansas State Live Stock Registry Board, and the signature of the secretary of the Kansas State Live Stock Registry Board. The license for a cross-bred, grade, or scrub stallion shall contain the following information: license number, statement of breeding, color, age, name and address of owner, date of issue, seal of the Kansas State Live Stock Registry Board, and the signature of the secretary of the Kansas State Live Stock Registry Board.

Section 8. Every bill, poster or other advertisement of every kind and nature, issued by the owner, keeper, or person in charge of any stallion enrolled and licensed under this act and used to advertise such stallion by said owner, keeper, or person in charge, shall have as a heading for such advertisement the class of license issued for said stallion and the number of his license; thus, "Purebred License No....," "Cross-bred License No....," "Grade License No.," or "Scrub License No.....," as the case may be. In all advertisements this heading shall be set in the **largest and boldest type** used in the advertisement.

Sec. 9. The owner, keeper, or person in charge of any stallion standing for public service in this State shall post and keep affixed during the entire breeding season, the license certificate of each stallion issued under the provisions of this act, in a conspicuous place in each stable or building where said stallion stands for public service.

Sec. 10. Upon transfer of ownership of any stallion licensed under the provisions of this act, the new owner shall forward to the office of the Kansas State Live Stock Registry Board the license issued in the name of the former owner, together with the fee of fifty cents and satisfactory evidence

that the stallion transferred is the one for which the license was originally issued. It shall then be the duty of the Kansas State Live Stock Registry Board to record such transfer and issue a license in the name of the new owner.

Sec. 11. It shall be the duty of the county clerk of each county in the State of Kansas to file with the Kansas State Live Stock Registry Board before July 1 of each year, a complete list of all stallion owners in his county, together with the number of stallions owned by each, as shown by the assessor's report of that particular county. He shall also file with the Kansas State Live Stock Registry Board before July 1 of each year, the total number of horses in his particular county.

Sec. 12. It shall be optional with owners, keepers, or persons in charge of stallions standing for public service whether or not said stallions shall be examined for soundness, but no stallion shall be advertised in any manner either directly or indirectly as a sound stallion until a certificate of soundness has been issued for said stallion by the Kansas State Live Stock Registry Board, and then said stallion may be advertised as sound only during the life of the certificate of soundness. This certificate of soundness shall become null and void and not in force on December 31 of the year during which it is issued. The fee of each certificate of soundness shall not exceed \$2.00 for each stallion.

Sec. 13. Any person, persons, firms, company, corporation or association that shall violate any of the provisions of this act, shall be deemed guilty of a misdemeanor and upon conviction in any court of competent jurisdiction shall be punished by a fine of not less than \$20 and not more than \$50 for each offense.

Sec. 14. The funds accruing from the above named fees shall be used by the Kansas State Live Stock Registry Board to defray the expenses of enrollment of pedigrees and the issuing of licenses, to publish reports or bulletins containing lists of stallions, licenses and transfers, and for any other such purpose as may be necessary to carry out the purposes and enforce the provisions of this act, and all moneys accruing above the amount necessary for said purposes shall be turned into the general revenue fund of the State. It shall be the duty of the Kansas State Live Stock Registry Board to make annual report, including financial statements, to the governor of the State, and all financial records of said Kansas State Live Stock Registry Board shall be open to inspection.

Sec. 15. All licenses issued by the Kansas State Live Stock Registry Board under the provisions of chapter 168, Laws of 1909, shall become null and void and not in force on and after July 1, 1913.

Sec. 16. All laws and parts of laws, including chapter 168, Laws of 1909, in conflict with this act are hereby repealed.

Sec. 17. This act shall take effect and be in force from and after July 1, 1913, and its publication in the official statute book.

Approved March 3, 1913.

STALLIONS LICENSED FROM JANUARY 1, 1919, TO DECEMBER 31, 1919
